October 2, 2020

Dear Parents/Guardians:

On Thursday evening, October 1st, the District was notified of an eighth grade student testing positive for Covid. While we do not know the name of the student as of this release, we do know based on information given yesterday that this student is a member of the junior high volleyball team. The County Health Department will be contacting those who have been deemed in contact with the student. The junior high volleyball season had already concluded the scheduled games. An additional game was in the works but no further games will take place.

As always, it is recommended that anyone who feels ill or is sick should stay home. Circle Public Schools will continue to operate on our normal schedule with onsite instruction and with our full staff. Any students needing to quarantine due to this positive test case will still have full access to all class content and curriculum at home through our online platforms. Contact the campus for further details regarding these platforms if necessary. School officials will continue to monitor the situation and will provide further information if and when it becomes available. Thank you and stay well!

Sincerely,

Preston Wenz
